

The Jews say God promised them land where Muslims have lived for centuries

The Muslims say God supports their war to drive the Jews from their land

President Bush said God told him to invade Iraq

Is GOD confused?

Good, I know your answer

And you are right

GOD is not confused

Man is confused

Man is confused about many things

Here are some of the reasons why

In the beginning

No, not THAT beginning

In our beginning

A grayscale photograph of a cave interior. The scene is dominated by a bright light source at the far end of a passage, creating a strong lens flare effect that illuminates the surrounding rock walls and floor. The light rays are visible, creating a hazy, ethereal atmosphere. The rock surfaces are textured and show some vertical crevices and stalactites. The overall tone is monochromatic, with various shades of gray and white.

In our beginning we weren't confused

A grayscale photograph of a waterfall. The water is captured in motion, creating a misty spray at the base. The rocks are dark and jagged, contrasting with the lighter, frothy water. The overall scene is serene and powerful.

In our beginning we didn't know anything

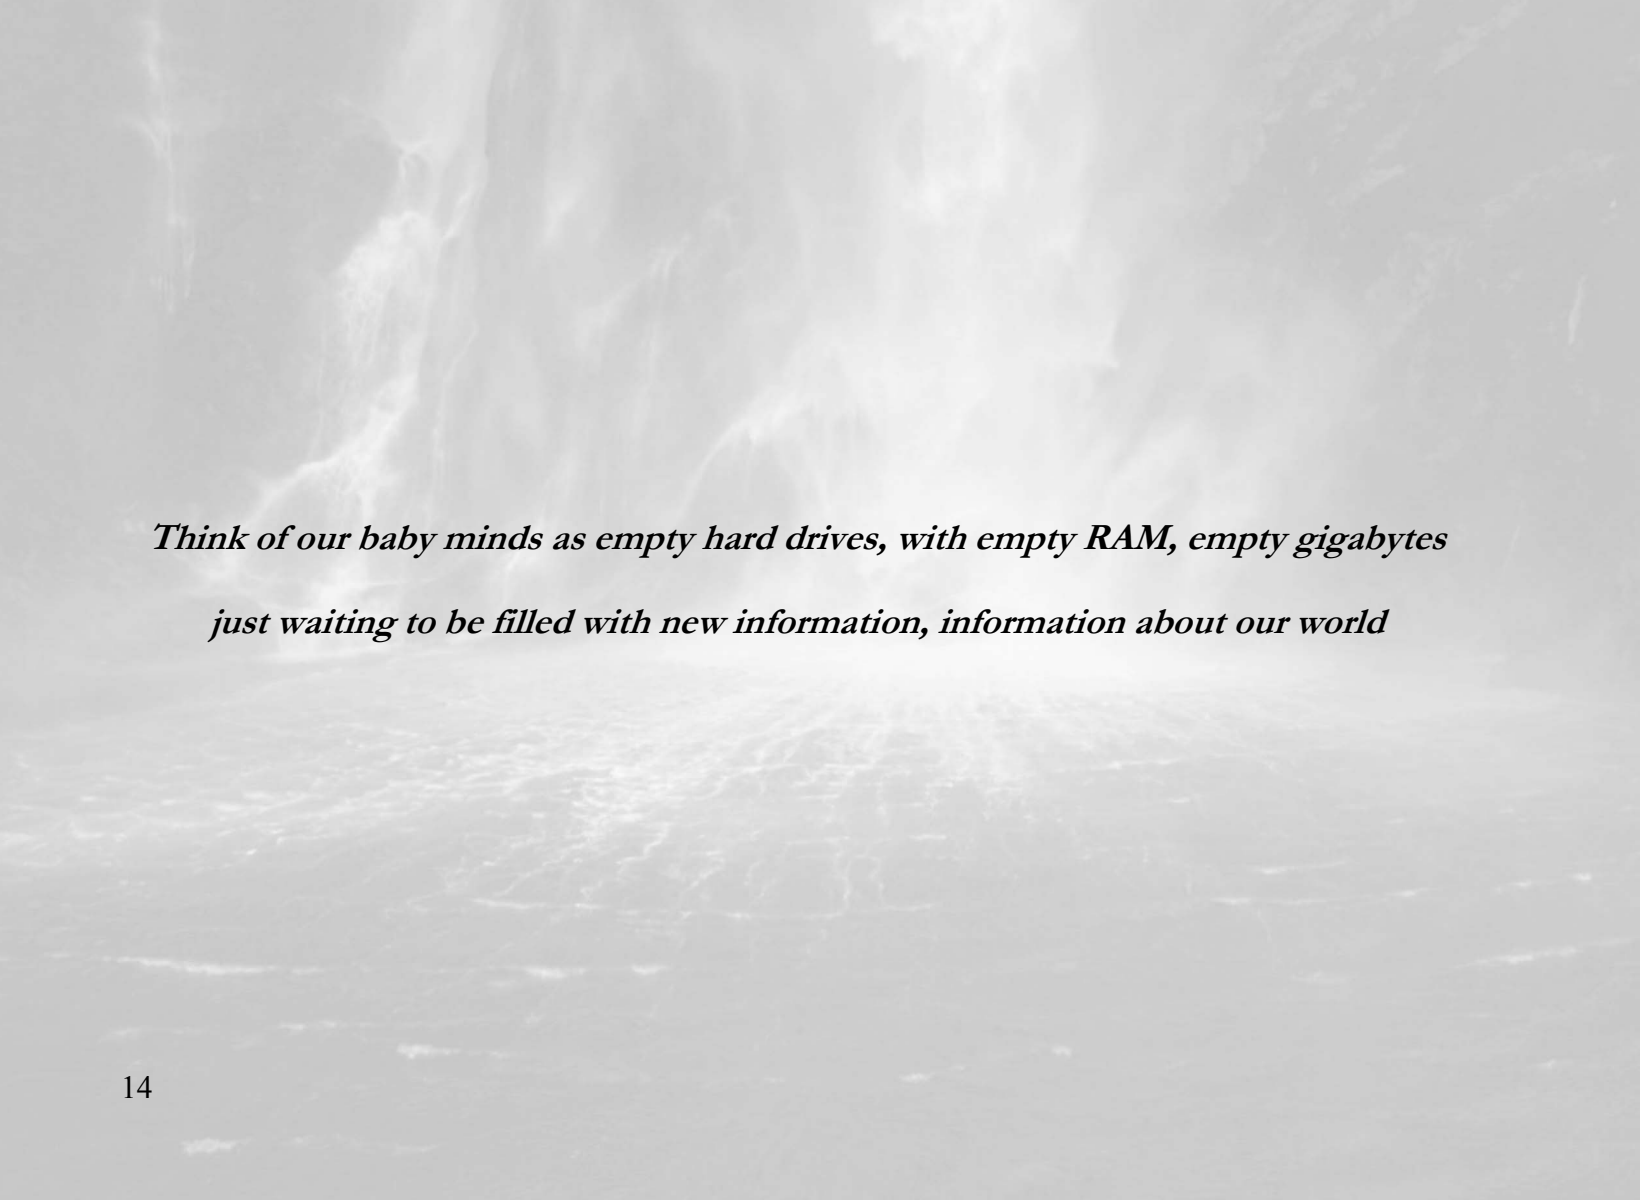

Because we were babies

The confusion came later

Though not much later

*Think of our baby minds as empty hard drives, with empty RAM, empty gigabytes
just waiting to be filled with new information, information about our world*

We filled our minds

We filled our minds with what we noticed

What we thought and what we were told

But we all noticed different things

We all had different thoughts

And we all were told different things

A grayscale photograph of a cave interior. A bright light source is at the far end of a long, narrow tunnel, creating a strong perspective effect. The light illuminates the rocky walls and floor, which are covered in water or wet surfaces, reflecting the light. The overall atmosphere is mysterious and dramatic.

So all our worlds were different

But we didn't know that

That's how the confusion began
